Supporting local communities and sustainable travel

On our trips we take care to utilize local resources, showcase local arts and local food options.

Special care is taken to by priority select the timing of visits to each destination so these are not overwhelmed.

Small villages, less visited, more unique are destinations that are included in our itineraries. Examples would be Nafpaktos and Dimitsana which are of great natural beauty and often overlooked.

Giving back to the local communities is of great importance to us and so important for sustainable tourism practices.

The ladies at the small village of Agia Paraskevi on the island of Lesbos; an amazing day trip (private book out and dinner) to the local museum.

The village cooperative took care of the cooking. Amazing local recipes.
